## GET TO KNOW ME BETTER!

Front End Developer committed to constant learning. I have participated in freelance development projects for national brands. My colleagues know me as an innovative, responsible and creative professional, who can be trusted to come up with a new approach. I enjoy teamwork, and my main focus is on customer and user experience. Thus, I use agile methodologies in my projects, which allow me to reach the final product quickly and efficiently, meeting the expectations of my clients and my own.
